NoteStation

User Guide · Version 2026.09.09.0003

Clipboard manager · Sticky notes overlay · Task manager

Built for Low Vision users -- fully customisable per-note font and color.

Version `2026.09.09.0003` -- .NET 10 · C# 14 · WPF · MVVM (partial) · JSON SourceGen. See `CHANGELOG.md` for release history.

Features

Clipboard Manager

- Auto-captures clipboard history (up to 500 entries)
- Pin important items so they stay at the top
- 5 quick-paste preset slots (Ctrl+1-5) populated from pinned items
- Cycle through recent clips with keyboard or mouse side buttons (XButton1/2)
- Optional Ctrl+Alt+Scroll to cycle clipboard
- Search/filter clipboard history

Sticky Notes (Overlay)

- Each note is an independent floating overlay window
- **Per-note font family, font size, bold, italic** -- fully independent
- **Per-note text color and background color** -- 8 presets + custom hex
- Notes persist between sessions and reopen where you left them
- Pin notes on top of all windows (button)
- Hide/show from main window list
- Resize by dragging bottom-right corner

[done] Task Manager

- Drag-to-reorder tasks
- Assign due dates and times
- Star important tasks
- Push tasks to **Timer Studio** for countdown alerts
- Quick-add task bar with optional date picker
- Search/filter tasks
- Complete/incomplete toggle
- Additional views: **Calendar** (month grid with due-date cells), **Focus Mode** (single-task distraction-free panel), **Matrix** (priority/urgency quadrant), and **Memoboard** -- switch via the header's advanced-view toggles

---

Appearance

130 built-in themes sharing one 13-brush contract (light, dark, and high-contrast variants), including **Editorial** -- a navy/serif theme pairing Instrument Serif headings with Inter body text (falls back to Georgia/Segoe UI if those fonts aren't installed on your system). Per-tab content font size is independently adjustable

(Clipboard/Notes/Tasks/Folders) via A-/A+ controls, separate from the app chrome.

Low Vision Controls

Every sticky note has independent:

- **Font family**: choose from all installed Windows fonts
- **Font size**: 8-72pt slider
- **Bold / Italic** checkboxes
- **Text color**: 8 presets + custom hex input
- **Background color**: 8 presets (dark, cream, yellow, green, blue, pink, plum, salmon) + custom hex

UI Map

Row	Content
1	App name · Hotkeys · Settings · Theme · About · UI Size
2	Clipboard \
3	Context-sensitive toolbar (paste/prev/next/pin/delete for Clipboard, new/show/hide for Notes, new/complete/push/delete for Tasks)
4	Main content panel (list, note grid, or task list)
5	Quick Paste presets (5 slots from pinned clips) · Resize grip

Hotkeys

Action	Shortcut
New task (Tasks tab)	Ctrl+N
New note (Notes tab)	Ctrl+Shift+N
About / Help	F1
Cycle UI size	Ctrl+=
Quick-paste slot 1-5	Ctrl+1 ... Ctrl+5
Previous clipboard	XButton1 (mouse back button)
Cycle clipboard	Ctrl+Alt+Scroll (configurable)

Settings

Mouse Button Assignments -- Settings -> Mouse Button Assignments

Assign XButton1 or XButton2 to previous/next clipboard. Optionally enable Ctrl+Alt+Scroll.

TimerStudio Integration -- Settings -> Timer Studio Integration

Point to `%AppData%\TimerStudio\timers.json` to enable push-to-timer from task cards.

Data storage

All data lives in `%AppData%\NoteStation\`:

- `prefs.json` -- window geometry, settings
- `clipboard.json` -- clipboard history (text only)
- `notes.json` -- sticky note content and appearance
- `tasks.json` -- task list

No network calls are made. No telemetry.

Building

```
cd NoteStation
build.bat
```

Requires: **.NET 10 SDK**, optionally **NSIS 3.x** for the installer.

WCAG AAA

- All interactive elements 44px touch target
- 7:1 contrast on all themes (text on background)
- 2px Gold focus ring (`FocusRingBrush`) on all focusable controls
- No color-only information
- Bottom-right drag handles on all resizable windows
- Sticky notes: fully customisable per-note font/color for Low Vision needs
